financial markets have become acknowledged as a source of crisis and discussion of them has shifted from economics through legal and regulatory studies to politics events from 2008 onwards raise important cross disciplinary questions must financial

markets drive states into political and existential crisis must public finances take over private losses must citizens endure austerity this book argues that there is an alternative if the financial system were less connected contagion within the market would be reduced and crises would become more localised and intermittent less global and pervasive the question then becomes how to reduce connectedness within financial markets this book argues that the democratic direction of financial market policies can deliver this politicising financial market policies taking discussion of these issues out of the sphere of the technical and putting it into the same democratically contested space as for example health and welfare policies would encourage differing policies to emerge in different countries diversity of regulatory regimes would result in some business models being attracted to some jurisdictions others to others the resulting heterogeneity when viewed from a global perspective would be a reversal of recent and current tendencies towards one single global level playing field within which all financial firms and sectors have become closely connected and across which contagion inevitably reigns no doubt the democratisation of financial market policy would be opposed by big firms their interests being served by regulatory convergence and considered macabre by some financial regulators and central bankers who are coalescing into an elite community however everyone else nicholas dorn argues here would be better off in a financial world characterised by greater diversity

this edited volume provides a comprehensive and critical review of what we know about military service and the life course what we don't know and what we need to do to better understand the role of military service in shaping people's lives it demonstrates that the military like colleges and prisons is a key social institution that engages individuals in early adulthood and shapes processes of cumulative disadvantage over the life course the chapters provide topical syntheses of the vast but diffuse research literatures on military service and the life course while the volume as a whole helps to set the agenda for the next generation of data collection and scholarship chapter authors pay particular attention to how the military has changed over time how experiences of military service vary across cohorts and persons with different characteristics how military service affects the lives of service members spouses children and families and the linkages between research and policy
