because every single one of us will die most of us would like to know what if anything awaits us afterward not to mention the fate of lost loved ones given the nearly universal vested interest in deciding this question in favor of an afterlife it is no surprise that the vast majority of books on the topic affirm the reality of life after death without a backward glance but the evidence of our senses and the ever gaining strength of scientific evidence strongly suggest otherwise in the myth of an afterlife the case against life after death michael martin and keith augustine collect a series of contributions that redress this imbalance in the literature by providing a strong comprehensive and up to date casebook of the chief arguments against an afterlife divided into four separate sections this collection opens with a broad overview of the issues as contributors consider the strongest evidence of whether or not we survive death in particular the biological basis of all mental states and their grounding in brain activity that ceases to function at death next contributors consider a host of conceptual and empirical difficulties that confront the various ways of surviving death from bodiless minds to bodily resurrection to any form of posthumous survival then essayists turn to internal inconsistencies between traditional theological conceptions of an afterlife heaven hell karmic rebirth and widely held ethical principles central to the belief systems supporting those notions in the final section authors offer critical evaluations of the main types of evidence for an afterlife fully interdisciplinary the myth of an afterlife the case against life after death brings together a variety of fields of research to make that case including cognitiveneuroscience philosophy of mind personal identity philosophy of religion moralphilosophy psychical research and anomalistic psychology as the definitive casebookof arguments against life after death this collection is required reading for anyinstructor researcher and student of philosophy religious studies or theology it issue to raise provocative issues new to readers regardless of background from thosewho believe fervently in the reality of an afterlife to those who do not or are undecidedon the matter

this catechism is divided into three parts the first part treats of faith the second of morals the third of the means of grace in the first part our lord appears in his character of teacher in the second in his character of king and in the third in his character of high priest and since this catechism proposes as its primary object to

answer the question for what purpose are we here upon earth thereby emphasizing and giving prominence to man's high calling and destiny it is especially suited to the present day when the pursuit of material interests self indulgence and pleasure engrosses the attention of so many this catechism is in fact nothing more nor less than an abstract of our lord's teaching and may be called a guide book for the christian on the road to heaven preface

moments of soul is a philosophical inquiry into four distinctive powers of humanity free choice personal identity honor and faith the theme through all four powers is the paradox of soul as the power of attraction between persons not the hidden attribute of an individual while the inquiry aims to develop our powers of mutual attraction it exposes some common mistakes of our times such as reducing mind to brain function mixing personal identity with ethnic pride and confusing faith with religious belief the method is to avoid making images or analogies in order to state clear problems and find their solutions
